SHAURYA HINDOCHA

CSE (AI/ML) STUDENT | SOFTWARE & AI/ML ENTHUSIAST

8700834739 | hindochashaurya4@gmail.com | Delhi

PROFESSIONAL SUMMARY

Motivated and results-driven B.Tech Computer Science student specializing in Artificial Intelligence and Machine Learning at Roorkee Institute of Technology. Passionate about software development, AI/ML, and emerging technologies, with hands-on experience in building innovative projects, including AI-powered applications and autonomous cybersecurity solutions. Experienced in leadership, event management, and community engagement as PR & Outreach Lead at Google Developer Groups (GDGoC) RIT. Actively involved in hackathons, technical initiatives, and collaborative projects, with a strong interest in problem-solving, innovation, and leveraging technology to create real-world impact.

TECHNICAL SKILLS

Proficient in Python, C++, JavaScript, HTML, C, React.js, and Node.js. Experienced with AI/ML, Generative AI, LLMs, FastAPI, MongoDB, and REST APIs. Familiar with Git, GitHub, Google Cloud Platform (GCP), and API integration.

PROJECTS

- **Flora AI – AI-Powered Product Intelligence Platform**
  Built an AI-powered document intelligence platform that extracts, processes, and organizes product information from PDFs, images, Excel sheets, and catalogs.
  Tech Stack: Python, React, Tailwind CSS, MongoDB, Gemini API, OCR.
- **SENTINEL-AI – Autonomous Cybersecurity Platform**
  Developed an AI-powered cybersecurity platform that detects vulnerabilities, gathers evidence, generates remediation strategies, and verifies security fixes.
  Tech Stack: Python, FastAPI, React, TypeScript, Gemini API, AST Static Analysis.
- **ExplainMe – AI Learning Assistant**
  Conceptualized an AI-powered educational assistant that simplifies complex academic topics into easy-to-understand explanations
- **Mediplus – Healthcare Platform**
  Conceptualized a digital healthcare solution focused on simplifying access to medical information and healthcare-related services.
- **EaseAttend – Smart Attendance Management System**
  Designed a web-based attendance management platform with separate Student, Teacher, and HOD dashboards for submitting, reviewing, and approving attendance proofs.
  Tech Stack: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB.

LEADERSHIP, EXPERIENCE AND ACHIEVEMENTS

- **PR & Outreach Lead – GDGoC RIT**
  Led public relations, student outreach, and promotional campaigns while organizing technical workshops, events, and developer community initiatives.
- **Core Team Member – Fetch-A-Thon 3.0**
  Contributed to hackathon organization, volunteer coordination, event promotions, and student engagement for an Agentic AI event.
- **Team leading in the 24-hour College Hackathon**
  Participated in a 24-hour college hackathon focused on Stop Food Waste. Collaborated in a 5-person team to develop a Project using HTML, Java, and Python, showcasing effective problem-solving under tight deadlines.
- **Team leading in GFG hacksprint 9 hours hackathon(Top-5).**
  Participated in a 9-hour GFG hacksprint focused on EaseAttend. Collaborated in a 3-person team to develop a Project using HTML, Java , showcasing effective problem-solving under tight deadlines.

- **Volunteer at Adya AI launch lab X RIT**
  Served as a dedicated volunteer for the Adya AI Launch Lab Collabo, a high-profile event focused on great AI innovation. Gained exposure to the latest industry trends, while ensuring the event's overall success and positive participant experience
- **Participated in the ASI: One Agent Challenge by developing AI agents using Fetch.ai technologies.**
  Participated in Fetch-A-Thon 3.0, an Agentic AI hackathon, and secured a position among the Top 24 teams in India. Contributed to developing innovative AI agent solutions using Fetch.ai technologies, demonstrating problem-solving, technical skills, and innovation.

EDUCATION

- **ST. Xavier's school [2011-2025]**
  Completed Senior Secondary schooling from St. Xavier's School, a premier institution known for fostering academic rigor and holistic development. Achieved a strong foundation in PCM with 76% in the CBSE board.
- **Roorkee Institute of technology [2025-29]**
  Graduating with a B.Tech in Computer Science and Engineering, specializing in Artificial Intelligence and Machine Learning, from the prestigious Roorkee Institute of Technology. Developed core competency in machine learning and advanced data analysis techniques

ADDITIONAL INFORMATION

- **Technical Interests:** Artificial Intelligence, Machine Learning, Generative AI, Agentic AI, Cybersecurity, and Cloud Computing.
- **Core Strengths**: Leadership, Team Management, Problem-Solving, Communication, Event Coordination, and Collaboration.
- **Tools & Platforms:** GitHub, VS Code, Google Cloud, Postman, Antigravity, and Agent verse.
- **Areas of Interest:** Software Development, AI Research, Hackathons, and Emerging Technologies.
- **Languages:** English, Hindi, Gujarati
